

ROBERT DANIELS

Material Requirements & Inventory Planner

Poway, CA · robdan316@gmail.com · (858) 231-7380

Dedicated and analytical operations professional with extensive experience managing end-to-end inventory control, material requirements planning (MRP), and demand forecasting for manufacturing and technical environments. Proven track record of evaluating real-time component consumption rates, tracking quantities acquired, optimizing safety stocks, and directly driving replenishment decisions to prevent stockouts and streamline supply chain workflows.

CORE COMPETENCIES

Forecasting & Planning

Demand Forecasting · Material Requirements Planning (MRP) · Consumption & Usage Rate Analysis · Reorder Point Optimization · Bill of Materials (BOM) Control

Inventory & Logistics

Inventory Control · Stock Level Auditing · Procurement Management · Vendor Coordination · Shipping, Receiving & Kitting

Software & Systems

ERP Systems (Misys) · QuickBooks · API Data Integration · Microsoft Office Suite · Custom HTML Intranet Reporting · Inventory App Architecture

EXPERIENCE

Pedder Hyundai

March 2026 - Present

Automotive Lot Porter

Poway, CA

- Maintain front-line sales lot and active vehicle inventory to ensure complete operational readiness and visual standards.
- Manage physical staging, battery health monitoring, fuel levels, and logistical transfer tracking for incoming and outgoing inventory.

San Diego Gas & Electric

February 2025 - September 2025

Tool Repair Administration Associate

- Managed tool and equipment triage, logging repair, replacement, and calibration workflows into internal asset tracking systems.
- Handled direct procurement of specialized replacement components, parts, and repair services.
- Oversaw outgoing and incoming logistics for vendor repairs and precision tool calibration.

Excimer Laser Repair Corp.

2017 - 2025

Material Requirement Planner

- Evaluated historic consumption trends and part usage rates to accurately forecast future demand and establish optimal safety stock thresholds.
- Monitored master data and stock levels across active production cycles, aligning raw material availability with manufacturing output.
- Collaborated directly with external suppliers and internal purchasing to execute purchase orders and guarantee on-time delivery.
- Designed and implemented rigorous inventory control procedures, standard operating policies, and cycle count protocols.
- Assisted in the deployment and database configuration of corporate ERP services (Misys) to bridge operational tracking with financial systems.

EDUCATION

- Miramar Community College - Electronic Music Engineering (2010-2012)
- Poway High School - High School Diploma; Automotive Mechanic Vocational Classes (4 Years); Critical Needs Teacher's Assistant (2006-2010)
